SOHAM SUHAS DABHOLKAR

Pune, Maharashtra, India | +91-9356621799 | sohamdabholkar2005@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Computer Science (AI & ML) student with hands-on experience in full-stack web development, Python, SQL, and machine learning/NLP. Skilled at building responsive web applications and Transformer-based NLP systems, and actively expanding skills in DevOps practices (CI/CD, containerization, cloud deployment). Seeking a Software Development or AI/ML Engineer role to build reliable, real-world applications.

TECHNICAL SKILLS

Languages & Core: Java, Python, SQL, JavaScript, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS

Web Development: HTML5, CSS3, Tailwind CSS, Responsive Web Design, RESTful API Design, Full Stack Development

AI/ML & NLP: Scikit-learn, Natural Language Processing (NLP), Transformer Models (XLM-RoBERTa), Pandas, NumPy, Machine Learning Algorithms, Data Visualization

Databases & Cloud: MySQL, AWS Bedrock, Amazon Web Services (AWS), Google Cloud Platform (GCP), Generative AI Foundations

DevOps & Tools: Git, GitHub, VS Code, Google Colab, Jupyter Notebook; currently learning Docker, CI/CD pipelines, and cloud deployment workflows

PROJECTS

Multilingual Transformer for Sarcasm and Onomatopoeia Context Analysis *Final Year Project*

Python, NLP, Transformer Models (XLM-RoBERTa), Scikit-learn, REST API

- Designed a multilingual NLP system using a Transformer-based encoder to jointly detect sarcasm, sentiment, and onomatopoeic expressions in English, Hindi, Marathi, and code-mixed text.
- Analyzed context-dependent language patterns, including emojis, slang, and repeated characters, to improve on traditional sentiment-analysis approaches.
- Benchmarked traditional ML models against Transformer-based models using accuracy, precision, recall, and F1-score; planned a deployable web interface with a REST API for real-time analysis.

Pizza House — Customer Ordering & Engagement Platform

HTML5, CSS3, Tailwind CSS, JavaScript

- Built a fully responsive restaurant ordering and promotional website with a mobile-first UI to improve user experience.
- Integrated an interactive chatbot to automate FAQs, streamline customer queries, and boost engagement.

Virtual Lab — Digital Practical Demonstration Platform

HTML5, CSS3, JavaScript, Web UI Design

- Developed a web-based platform to simulate laboratory experiments and improve accessibility to practical learning resources.
- Designed a responsive, user-friendly interface for structured navigation across interactive modules.

EDUCATION

B.Tech, Computer Science (AI & ML) — JSPM University, Pune, MH *2024 – 2027*

Currently Pursuing

Diploma in Computer Engineering — Government Polytechnic, Ratnagiri, MH *2021 – 2024*

Aggregate: 83.56%

Secondary School Certificate (SSC) — Maharashtra State Board, MH *2021*

Percentage: 77.00%

INTERNSHIPS & CERTIFICATIONS

- AWS Academy Generative AI Foundations — EduSkills / AWS: Prompt Engineering, Foundation Models, Amazon Bedrock, Responsible AI.
- Google Cloud Data Analytics Virtual Internship — Google Cloud / SmartBridge: Cloud data pipelines, processing, visualization.
- Full Stack Web Development (Sigma 9.0) — Apna College: Frontend, backend development, database architecture.
- Basics of Python & Presentation Skills — Infosys Springboard: Core Python scripting, data structures, professional communication.

CORE COMPETENCIES & LANGUAGES

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Quick Learner, Adaptability, Effective Communication

Languages: English (Professional), Hindi (Fluent), Marathi (Native)
